

## Outboard Maintenance

This course is designed to introduce people into basic maintenance and servicing of outboard engines from 4hp to 70hp 2 stroke and 4 stroke. This practical course will enable the individual to complete all the checks and service requirements for an outboard motor. It will also enable you to understand and rectify systematic fault finding on E.F.I (electronic fuel injection) systems, gearbox removal and calibration, cam belt replacement and valve clearance procedures. The course will also cover engine theory and fault finding procedures/test procedures. Course costs £400. Please note - course cost will need to be paid at the time of booking.

### Key facts

**Course title:**

Outboard Maintenance

**Locations:**

Falmouth Marine School,  
Falmouth Marine School,  
Falmouth Marine School

**Start date:**

03-04-2018, 02-07-2018,  
09-07-2018

**Course length:**

4 days
